

## TIME TO LIVE

```
insert into user_transaction (person_id,transaction_id, city, datetime) VALUES  
(10,125,'IST','2020-05-21 8:32:16') USING TTL 30;
```

```
[cqlsh:user_transaction> select * from user_transaction;
```

person_id	transaction_id	city	datetime
10	125	IST	2020-05-21 06:32:16.000000+0000
1	123	ANK	2023-05-21 06:32:16.000000+0000

(2 rows)

```
[cqlsh:user_transaction> select * from user_transaction;
```

person_id	transaction_id	city	datetime
1	123	ANK	2023-05-21 06:32:16.000000+0000

(1 rows)

```
[cqlsh:user_transaction> █
```

## UPDATE TTL

```
UPDATE user_transaction USING TTL 25 SET city='ANK' where person_id=1  
and transaction_id = 123;
```

## Update TTL while creating table

```
CREATE TABLE .... USING TTL 100
```
